

BEACON RX MK2

INFRARED LAP TRIGGER RECEIVER

DESCRIPTION

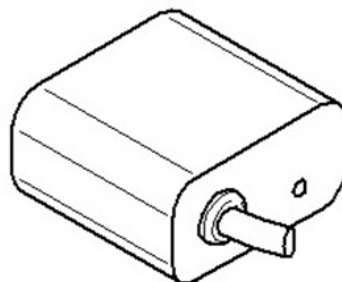

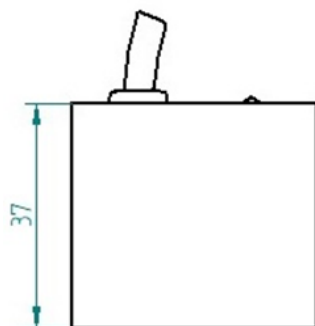

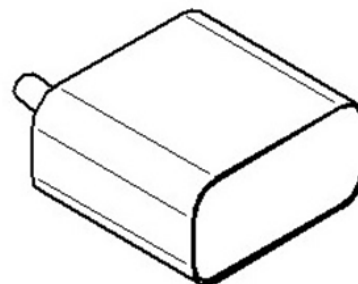

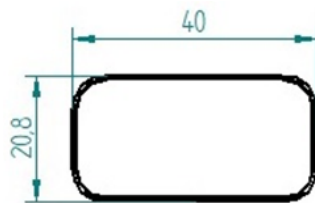

The NS BEACON RX is a coded infrared lap trigger receiver. When used in combination with the NS BEACON TX infrared lap trigger receiver, it generates accurate and reliable end of lap signal.

Very fast TX signal decoding thanks to the microcontroller running at 30 Mhz.

FEATURES

- Small dimension
- Light weight
- Machined aluminum body
- 8ms fast decoding time

DIMENSIONS & WEIGHT

TOTAL WEIGHT	43	grams
